

## ***Aplix Cable Ties***

Aplix has developed a complete line of hook & loop reusable products designed to bundle, position and affix cables. These cable ties are suitable for use in computer, electronics, telecommunications and network installation industries. All our cable ties are certified UL94V2 & FAR25 as standard.

They are already approved by leading names such as IBM, Bull and Nortel and provide the following advantages:

**Quick & easy installation. No tool required.**

**Reusable: Will open and close up to 10000 times.**

**Do not crush fragile fibre optics and eliminate kinking.**

**Do not infringe data transfer rate.**

**Promote 'good house keeping' for LAN, easy to change and identify.**
