

WALK

Yaktrax® Walk is a spikeless, lightweight and easy to use ice traction device. Perfect for pedestrians, professionals and the elderly, the Walk provides greater stability while walking naturally on packed snow and ice. The Walk helps reduce the risk of falling.

BENEFITS

- 360° of traction with the patented skid lock coil system
- Can withstand temperatures as low as -41° C
- Adapts to most footwear

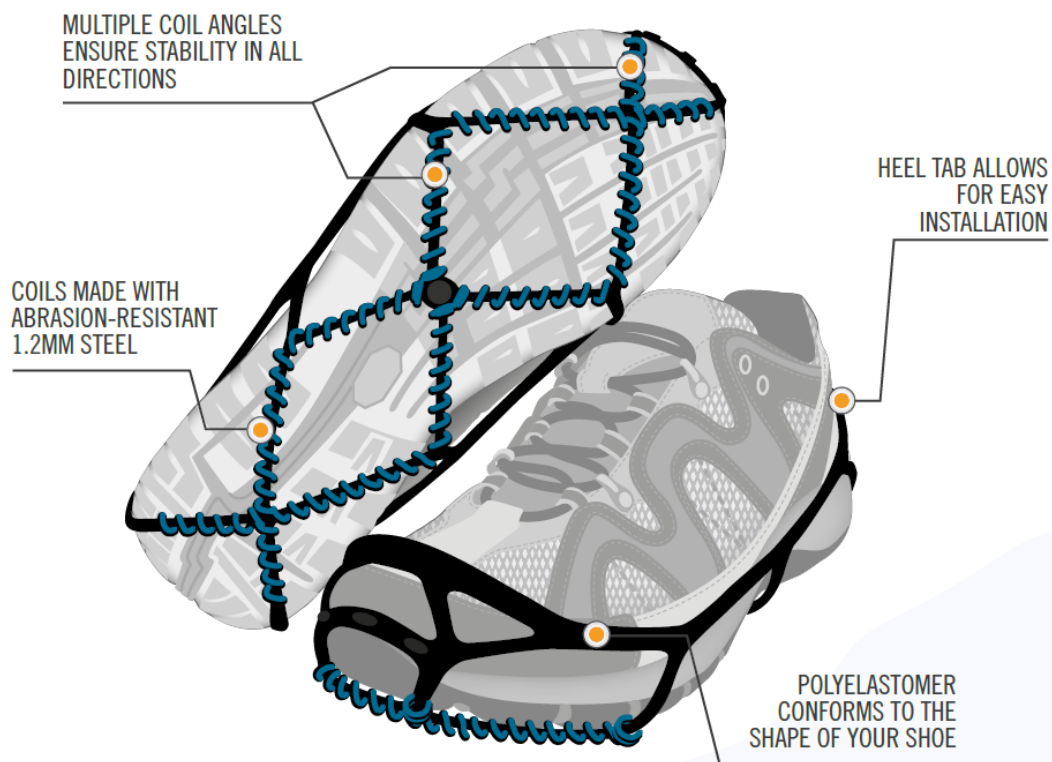

SPECIFICATIONS

WEIGHT: 0,05kg - 0,11kg per pair

MATERIAL:

- Coils: 1.2mm high strength steel
- Webbing: Polyelastomer

SIZE: From XS (34/37) to L (44/46)

PRO

Yaktrax® Pro coil design will give you better traction on packed snow or ice. Enjoy outdoor activities or continue your athletic training with the same stability you are accustomed to experiencing on dry surfaces. These devices can withstand temperatures as low as -41°C and are built to last.

BENEFITS

- Spikeless & ultra-lightweight design
- 360° of traction allows you to run/work on snow & ice
- Low profile for comfortable prolonged use

SPECIFICATIONS

WEIGHT: 0,11kg - 0,20kg per pair

MATERIAL:

- Coils: 1.4mm high strength abrasion resistant steel
- Webbing: Natural Rubber

SIZE: From S (38/40) to XL (46+)
