M602 - SCREW EXTRACTORS SCREW EXTRACTORS - Sutton Tools

Sutton Tools Screw Extractors or Easy Outs are designed to remove broken studs, bolts, socket screws and fittings. Helpful Hint: Use recommended Sutton Tools drill size to pre-drill a pilot hole in the broken bolt prior to extracting.

Features:

- Aggressive left hand spiral for extra gripping power
- Spiral flutes designed to embed themselves deeper, therefore as fastener resistance increases the extractor's grip increases
- Square end for hand operation in a variety of holders
- Made from Carbon Steel
