

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and longevity.
- **12 mm Length:** Suitable for compact installations and precise applications.
- **9.03 mm Outer Diameter:** Ensures compatibility with standard housings.
- **5.99 mm Shaft Diameter:** Designed for optimal fit and performance with compatible shafts.
- **Low Friction:** Enhances efficiency and reduces energy consumption.

**RS PRO 12 mm Sintered Bronze Plain Bearing, 9.03 mm Outer Diameter**

RS Stock No: 528-945

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from high-quality sintered bronze, it offers excellent durability and reduced friction, making it ideal for various industrial uses. The compact design with a 12 mm length and 9.03 mm outer diameter ensures a perfect fit for precision engineering tasks.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	5.99 mm

## Mechanical Specifications

Length	12 mm
Material	Sintered Bronze
Outside Diameter	9.03 mm
