

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long-lasting performance.
- **Compact Design:** With a length of 5/8 inch, it fits seamlessly into tight spaces.
- **Optimal Shaft Diameter:** Designed for a 0.24 inch shaft, ensuring precise and reliable operation.
- **Efficient Performance:** Reduces friction and enhances the efficiency of mechanical systems.
- **Corrosion Resistance:** Offers protection against rust and corrosion, extending the lifespan of the bearing.

RS PRO 5/8 in Plain Bearing, Sintered Bronze

RS Stock No: 528-146

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for smooth and efficient rotational movement in various mechanical applications. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for high-load environments. The compact design with a 5/8 inch length ensures easy integration into existing systems.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.24 in

Mechanical Specifications

Length	5/8 in
Material	Sintered Bronze
Outside Diameter	0.37 in
