

## Features

- Constructed from a reinforced ABS body that is non-conductive, non-sparking, and resistant to chemicals and corrosion, ensuring durability and safety in various environments.
- Features ribs on the body for easy gripping and handling, making it user-friendly even in challenging conditions.
- Equipped with a vinyl-coated steel cable for maximum strength and flexibility, enhancing the padlock's durability and usability.
- Each lock is supplied with a unique coded key and a 6-pin brass cylinder, ensuring high security.
- Ideal for use in breaker cabinets and confined application areas where space is limited, ensuring effective lockout procedures.
