

FEATURES

- **Sintered Bronze Material:** Ensures high wear resistance and longevity.
- **Compact Design:** Fits easily into confined spaces with a length of 1/2 inch.
- **Optimised for 0.49 in Shaft Diameter:** Provides a precise fit for enhanced performance.
- **0.69 in Outside Diameter:** Offers stability and support for rotational applications.

RS PRO 1/2 in Plain Bearing, Sintered Bronze

RS Stock No: 528-170

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. Its compact size makes it suitable for use in tight spaces, providing smooth operation and reducing friction.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.49 in

Mechanical Specifications

Length	1/2 in
Material	Sintered Bronze
Outside Diameter	0.69 in
