# RS Pro Extra slim led spotlight 10W

## Remote controlled

RS Stock No: 1363569

### Specifications :

This spotlight is a new benchmark in the field of outdoor lighting. Built in a frame barely 27mm thick, this spotlight has succeeded in combining a powerful and cost-efficient lighting with a self-igniting system. The latter is totally customizable because of a smart remote control. At the push of a single button you can adjust the lighting times and its mode of operation. Its lighting angle of 120° is wide and very comfortable.

Its high level of performance is made possible through the use of high quality electronic components and a Led COB that can generate a flux of 800 lumens. Moreover this spotlight is low energy-consuming. Its consumption is less than 100W.

### Features :

- Power supply consumption: 10W
- Lighting power: 800 lumens
- Lighting: Cool Daylight 6000K
- Dimension (h x l x p):  
102 x 135 x 27 mm
