RS Stock No.: 885316

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

RS PRO 720mm Tall Safety Box is a robust, front-loading storage solution designed to keep essential safety equipment secure, protected, and easily accessible in emergency situations. Suitable for storing first aid kits, spill kits, and other emergency equipment, it is ideal for installation on commercial vehicles, industrial sites, and building exteriors.

Constructed from durable UV-stabilised roto-moulded polyethylene, the box is engineered to withstand harsh working environments while protecting its contents from water, dust, and UV exposure. Dual UV-resistant polycarbonate inspection windows allow for quick visual checks without opening the box, ensuring critical equipment is always visible and ready for use.

Inside, ladderlock buckles with webbing straps keep both extinguishers securely in place during transport.

Built for demanding environments, the 720mm Tall Safety Box provides a reliable and secure storage solution that protects vital safety equipment while ensuring it remains organised, visible, and immediately accessible whenever it's needed.
