

Nobo Impression Pro Universal Tablet Stand

This lockable universal tablet stand provides a secure, flexible, and professional way to display digital content in high-traffic environments such as offices, schools, retail spaces, hospitality venues, and events. Featuring lockable clamps secured with a key, it protects your tablet against theft while supporting devices from 9" to 12.9". The standing tablet holder is designed for versatility, allowing quick rotation between portrait and landscape orientations, with adjustable height for improved visibility and accessibility. An integrated cable management system neatly routes charging cables through the pole to maintain a tidy, clutter-free setup. With its combination of security, practicality, and style, this universal standing tablet holder ensures your digital notices, menus, and advertisements are always presented clearly and professionally. Be clear with Nobo.

Attributes

- Universal tablet holder with stand ideal for high-traffic environments such as offices, schools, retail spaces, hospitality venues, and events.
