

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and longevity
- **12 mm Length:** Compact size for versatile application
- **22.05 mm Outer Diameter:** Ensures compatibility with various housings
- **15.98 mm Shaft Diameter:** Offers a precise fit for optimal performance
- **Self-lubricating:** Reduces maintenance needs and operational costs

## RS PRO 12 mm Sintered Bronze Plain Bearing, 22.05 mm Outer Diameter

RS Stock No: 528-972

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from high-quality sintered bronze, it offers excellent durability and performance in various industrial settings. Its compact design with a 12 mm length and 22.05 mm outer diameter makes it suitable for tight spaces, while the 15.98 mm shaft diameter ensures a precise fit.

## General Specifications

|                |               |
|----------------|---------------|
| Product Type   | Plain Bearing |
| Shaft Diameter | 15.98 mm      |

## Mechanical Specifications

|                  |                 |
|------------------|-----------------|
| Length           | 12 mm           |
| Material         | Sintered Bronze |
| Outside Diameter | 22.05 mm        |
