Manufacturer Declaration

As manufacturer:

PR electronics A/S
Lerbakken 10
DK-8410 Rønne
Denmark

Hereby declares that:

Original PR electronics item 4501 Display / programming front has been discontinued as of June 2022 due to component obsolescence. A replacement product PR 4510 has been introduced.

The introduced PR 4510 electrical and user interface is designed as a replacement for PR 4501 applicable for all past and present delivered PR 4000 and 9000 installations.

- The PR 4510 is considered a FORM, FIT, FUNCTION replacement for PR 4501 with only one deviation: product depth changed from 11mm to 26.5 mm.
- The product PR 4510 holds all relevant material, electrical, Ex and marine certification and introduces no further restrictions on deployment of PR 4000 and 9000 series units
