

Datasheet

Europe to UK Travel Adaptor, with European Plug and European Socket, Rated At 13A

Description:

Schuko plugs are 3 pole mains connectors, with lateral "scraping" contacts for earth connection.

They are used in Germany, Holland, Luxembourg, Austria, Spain, Portugal, Sweden, Norway, and Finland.

Originally denominated CEE 7 it was further developed into CEE 7/7 with the addition of a female entry for the earth pin proper to the NF USE norm, thus extending its use to France and Belgium.
