

## FEATURES

- **Sintered Bronze Material:** Offers high strength and wear resistance, ensuring long service life
- **2 in Length:** Suitable for a wide range of applications, providing versatility
- **1.63 in Outside Diameter:** Allows for easy installation and compatibility with standard housings
- **1.24 in Shaft Diameter:** Ensures a snug fit for optimal performance

## RS PRO 2 in Plain Bearing, Sintered Bronze

RS Stock No: 558-553

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from high-quality sintered bronze, it provides excellent durability and performance in various industrial settings. Its compact design allows for easy integration into existing systems, ensuring smooth operation and reduced maintenance.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.24 in

## Mechanical Specifications

Length	2 in
Material	Sintered Bronze
Outside Diameter	1.63 in
