DESCRIPTION

IMPACT WRENCH 1/2" IAR SERIES

This new impact wrench opens the way to a whole new generation of 1/2" wrenches of which PTS is the forerunner: powerful motor, lightweight, good balance in order to reduce the impact on musculo-skeletal disorders.

INNOVATIVE Its composite casing offers many advantages: Lightweight to relieve the operator when doing repetitive jobs, well-balanced to reduce MSDs. Insulation from cold and reduction of vibrations. **HIGH-PERFORMANCE** Its new motor made with new alloys with an optimised punching system (ensuring an anti-reaction effect and lengthening lifetime) provides a particularly competitive speed/power combination (8,000 rpm - 1,350 Nm). **Composite casing.** Its double-hammer punch system is the guarantee of reliability and power. The variable torque control placed at the rear ensures great ease-of-use for the operator.
