RS Pro 1/4 in Hex Pre Settable, Standard Torque Driver, 6 → 406Ncm

Product Details

Pre-Settable Torque Drivers

* hexagon drive

Bi-directional mechanism signals when torque has been achieved

Precision radial ball clutch and cam design

End cap protects the pre-set mechanism and prevents tampering

Specifications:

Torque Range	6 → 406Ncm
Type	Pre Settable, Standard
Drive Shape	Hex
Drive Size	1/4 in
Overall Length	127 mm
Accuracy	6 %
