

Endress+Hauser Vibronic level switch FTL33-AA4N2ACX2J

Point level switch for liquids in hygienic applications.

Picture for reference only. Product appearance may vary based on configuration

The Liquiphant FTL33 is a vibronic point level switch for liquids in hygienic applications. The FTL33 is especially designed for food & beverage applications and used for overfill prevention or pump dry-run protection. The measurement is not affected by conductivity, build-up, turbulence, flow or air bubbles and does not require calibration. The IO-Link capability allows easy and time-saving configuration.

- Plug & play sensor with no need for adjustment with changing media
- Smallest vibronic sensor in the market
- No calibration required
- Robust design assures high durability

Configuration of FTL33-AA4N2ACX2J:

Approval:	AA	Non-hazardous area
Power Supply; Output:	4	10-30VDC; 3-wire PNP
Electrical Connection:	N	Plug M12, IP66/68/69 NEMA Type 4X/6P Encl.
Sensor Design:	2	Max. process temperature 100oC/212oF
Sensor Type:	AC	Compact version 316L Ra<0.76um/30uin
Process Connection:	X2J	Thread M24, 316L install > accessory adapter

Alternative part number: FTL33-5N54/0
