## RS Pro White PTFE Tape

RS Stock No: **121-5899**

### Product Details

RS Pro PTFE thread seal tape is designed for sealing threaded joints thus replacing conventional products. The material is chemically inert and is suitable for use in aggressive environments, where acids, solvents and gases are present. Making it ideal for water, petrol, oxygen and chemicals such as acetone, it prevents pressure of fluid loss. It reduces the risk of bi-metallic corrosion in threaded structures, such as brass screws in aluminium or steel. It is supplied in plastic dispenser reels.

### Features and Benefits

- Designed for sealing threaded joints
- Suitable for use in aggressive environments
- Prevents pressure of fluid loss
- Reduces the risk of bi-metallic corrosion in threaded structures

**Specifications:**

Application	Sealing
Colour	White
Length	12 m
Maximum Operating Temperature	+260°C
Minimum Operating Temperature	-200°C
Thickness	0.075 mm
Width	12 mm
Operating Temperature Range	-200 to +260°C
Suitable For	Use in Aggressive Environments
