

## New and innovative solution for WYPALL\* Large Roll Dispenser

Do you require a high capacity, mobile system which considers your usage, hygiene, waste, maintenance and cost efficiency needs?

Our latest KIMBERLY-CLARK PROFESSIONAL\* solution helps you to maximise the productivity and profitability of your processes.

### The Brand New Foot Pedal:

- Our new minimal assembly foot pedal is an add-on system to our Large Roll Dispenser giving extra benefits: Single handed dispensing - foot pedal holds roll in place when pressed, increasing ease of usage
- Ideal when you only have one hand free
- Controlled dispensing - only dispense the number of wipers that you need
- Increases your ability to reduce usage and waste

**WYPALL\***  
BRAND

# Large Roll Dispenser

## High capacity for busy, high usage areas

- Our mobile dispenser, with perforated large rolls allows for controlled usage and reduced waste as you only take what you need
- Available with a bin attachment for easy disposal of waste
- New, innovative, differentiated foot pedal break solution for maximisation of productivity and profitability

## Waste Disposal

- Poor performing products and unreliable dispensing can increase waste and consumption.
- As the cost of disposal is based on weight or volume, whether you are disposing hazardous waste or not, using a wiping solution that has superior performance combined with a controlled dispensing solution is critical to reduce your disposal costs and help support the profitability of your business.
- Our wiper products feature smart packaging solutions and considering your consumption, they are designed to reduce the amount you dispose of.
