## ICY BOX **IB-1612MCL-C31** Clone & Docking Station for 2x M.2 NVMe SSD

### High-speed transfer for M.2 SSD

Designed for performance, the IB-1612MCL-C31 supports two M.2 NVMe SSDs with a transfer rate of up to 10 Gbit/s. It allows super-fast file access and data transfers, ideal for high-resolution media, large backups, or intensive workloads. The integrated USB Type-C® interface provides reliable performance across systems.

### Dual NVMe SSD Docking Station

The IB-1612MCL-C31 functions as a dual M.2 NVMe SSD Docking Station when connected to a computer via its integrated USB Type-C® cable. Users can read, write, and transfer data between both SSDs at speeds of up to 10 Gbit/s, making it an ideal solution for professionals handling large files, system backups, or real-time storage expansion.

### Standalone cloning

When disconnected from a computer and powered by an adapter, the IB-1612MCL-C31 operates as a standalone SSD cloning station. Users can duplicate an entire M.2 NVMe SSD without software or a PC, making it perfect for quick system migrations, drive upgrades, or backups. LED indicators provide clear cloning progress updates, ensuring a smooth process from start to finish.
