0687696

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The lighting extension, along with the rail system for the balancer trolley, is an advanced solution that significantly enhances functionality and ergonomics in the workplace. It provides even and precise illumination of the work area, improving comfort and task efficiency.

With integrated rails, the extension allows for easy mounting of the balancer trolley, enabling tools and devices to be suspended within convenient reach. The universal mounting holes are designed for compatibility with any lighting system, offering flexibility to suit individual workstation needs.

The lighting extension is designed to cover the entire width of the ESD modular table, ensuring comprehensive lighting coverage and better organization of the workspace. With a maximum load capacity of 15 kg, it is a robust and versatile component that performs excellently in modern production environments where precision and efficiency are crucial.

Accessories compatible with L & H Type workbenches

Accessory Type: ESD Lighting Extension
