

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **30 mm Length:** Suitable for applications requiring compact and efficient bearing solutions.
- **26.05 mm Outside Diameter:** Ensures compatibility with a wide range of housings and assemblies.
- **19.98 mm Shaft Diameter:** Designed for precise fit and optimal performance in machinery.

RS PRO Sintered Bronze Plain Bearing, 30 mm Length

RS Stock No: 518-186

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price

Product Description

This RS PRO plain bearing is crafted from high-quality sintered bronze, offering excellent durability and performance in various industrial applications. Designed to support rotational or sliding motion between machine components, this bearing is ideal for reducing friction and wear, ensuring smooth operation and extended equipment life.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	19.98 mm

Mechanical Specifications

Length	30 mm
Material	Sintered Bronze
Outside Diameter	26.05 mm
