

Datasheet

5V 3A power supply (US/EU/UK/AU Plugs)

RS Stock No:

Product Details

This Power supply is compatible with Raspberry Pi 4B board.

It comes with 1.2m USB-C Type lead and four Replaceable plugs for using in the US, UK, Europe and Australia regions. It supports 5V@3A and the power cable supports plug and play. Power switch is very convenient for turn on and off the power cord.

Features and Benefits

- SMPS Adaptor (Wall mount)
- Replaceable US/EU/UK/AU Plugs
- Removable wire cable
- Input Voltage AC: Min 110V
- Input Voltage AC: Max 240V
- Output Power Max 13W
- Output Voltage: 5V
- Output Current Max: 3A
- Output Connector: USB-C

Specifications:

- RoHS Certification
- CE Certification
- FC Certification
- Support voltage compensation
- OCP
- Low ripple & noise
- Short Circuit Protection
- Over Current Protection
