FFP2 Dust Mist Respirator

Product Information

This dust mist respirator is an EN149 compliant dust mask which has been designed for a variety of applications which involve fine toxic dust, fumes and water-based mists and protects against the inhalation of these. It is effective enough to be used in areas where the concentration of such contaminants is up to 10 times the Workplace Exposure Limit.

Technical Information

Colour: White

Protects against fine toxic dust, fumes and water-based mists
