

Wet Wipes for industrial hand cleaning

De-Solv-it® Hand Cleaning Wipes (DSI 4000HCW)

FEATURES/BENEFITS:

Effective	Removes oil, grease, dirt, grime without drying out skin
Moisturising	Contains emollients to leave hands clean, dry and moisturised.
Scientifically Tested	Certified to BS EN1276 standard
Pleasant Odour	Leaves hands smelling fresh
Convenient	No need for water, ideal when out in the field, the workshop or on production lines

USE:

Remove any excess residue from hands, wipe the skin thoroughly with Hand Cleaning Wipe and allow skin to dry. Keep the tub lid closed when not in use to prevent wipes drying out.

Wipe Dimensions: 250mm x 300mm

APPLICATIONS:

For cleaning hands of dirt, grime, oils and greases, leaving them clean, dry and moisturised following manual cleaning and maintenance operations whether on site or out in the field.

This formulation has been assessed under the Cosmetic products (Safety) Regulations 1996.
