DESCRIPTION

SECURE CUTTER

PRACTICAL

Ergonomic nylon handle allowing instant adjustment of the blade length based on the applied pressure.

The automatic output system ensures smooth use and saves time on repetitive cuts.

Interchangeable blades (25, 22mm), part reference SAM 379-25.

SECURE

The blade automatically retracts once it loses contact with the material, eliminating any risk of accidental cuts.

Designed for industrial use, this mechanism significantly reduces work accidents related to cutting operations.

ERGONOMIC

The rigid blade integrates with the handle to ensure a precise and stable cut without effort.

With a weight reduction of approximately 15% compared to a standard cutter, this model offers a better grip and reduces fatigue during repetitive cuts, while maintaining strength and stability.

This cutter ensures quick cuts on cardboard, plastics, etc., and provides enhanced safety compared to similar cutters, thanks to its rapid retraction technology and lockable blade.

SPECIFIC DATA

Designation	SAFETY CUTTER WITH RETRACTABLE BLADE
Sales reference	378-S30
Weight (kg)	0.087
Width (mm)	60
Length (mm)	165
Height (mm)	22
Guarantee	C Consumable

Guarantee applied

C | Consumable

The products in this category will not be replaced and are subject to normal wear phenomena.
