

## FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and durability, ensuring long service life.
- **2 in Outer Diameter:** Suitable for a wide range of shaft sizes, offering versatility in application.
- **1-3/4 in Length:** Compact design allows for easy integration into existing systems.
- **1.74 in Shaft Diameter Compatibility:** Ensures a precise fit for optimal performance.
- **Self-Lubricating Properties:** Reduces the need for additional lubrication, lowering maintenance costs.

## RS PRO Sintered Bronze Plain Bearing, 2 in Outer Diameter

RS Stock No: 528-853

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. Ideal for use in various industrial settings, it offers excellent performance with minimal maintenance. The primary benefit of this plain bearing is its ability to reduce friction between moving parts, enhancing the longevity of machinery.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.74 in

## Mechanical Specifications

Length	1-3/4 in
Material	Sintered Bronze
Outside Diameter	2 in
