

Contractor LMN silicone

PERMANENTLY FLEXIBLE SILICONE SEALANT

- Ideal for sealing a variety of construction substrates
- Flexible
- Good adhesion to porous & non-porous substrates

HOW TO APPLY

- Surfaces to be sealed must be clean, dry and free from grease and dust.
- To obtain a neat finish, mask joints.
- Sealant application should be between 5°C and 40°C.
- Apply as required.
- Tool within 5 minutes of application.
- Masking tape should be removed immediately after tooling.
- Uncured material can be removed by using a solvent. Cured material may be removed by abrasion or other mechanical means.
