

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance requirements.
- **2-1/2 in Length:** Suitable for applications requiring specific dimensional compatibility.
- **2 in Outside Diameter:** Ensures a snug fit in standard housings, enhancing stability.
- **1.74 in Shaft Diameter:** Compatible with a wide range of shaft sizes, allowing for versatile use.

RS PRO Sintered Bronze Plain Bearing, 2-1/2 in Length

RS Stock No: 528-855

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for reliable performance in various industrial applications. Known for its durability and low maintenance, this bearing is ideal for supporting rotational or sliding movements in machinery. Its primary benefit is the ability to operate efficiently without the need for additional lubrication, making it a cost-effective solution for many engineering needs.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.74 in

Mechanical Specifications

Length	2-1/2 in
Material	Sintered Bronze
Outside Diameter	2 in
