

FEATURES

- **Sintered Bronze Material:** Offers high wear resistance and self-lubricating properties, reducing maintenance needs.
- **16 mm Length:** Suitable for a variety of applications, providing flexibility in design.
- **14.04 mm Outside Diameter:** Ensures compatibility with standard housings and components.
- **9.98 mm Shaft Diameter:** Designed to fit standard shaft sizes, ensuring easy integration.

RS PRO Sintered Bronze Plain Bearing, 16 mm Length

RS Stock No: 528-281

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for smooth and efficient operation in various mechanical systems. Its primary use is to reduce friction between moving parts, ensuring longevity and reliability in machinery. The sintered bronze material provides excellent wear resistance and self-lubricating properties, making it ideal for maintenance-free applications.
