

February 20, 2006

The Plasti-Kote/Valspar Company guarantees a two-year shelf life from the manufacturing date on the majority of our aerosol paint. Which also includes our Zinc Chromate Primer has a shelf life of two years from the manufacturing date.

The manufacturer's date can be found on the bottom of the can, with the last two digits of the year the paint was run first, followed by the day of the year that it was run. For example: If the number on the bottom of the can is 03241, that particular paint was produced in 2003 on the 241st day: or August 28, 2003.

If I can be of further assistance, please don't hesitate to call me.

Sincerely,  
PLASTI-KOTE CO.  
A Valspar Company
