

FEATURES

- **Sintered Bronze Construction:** Provides high strength and wear resistance, ensuring long service life.
- **1-3/4 in Length:** Suitable for applications with specific dimensional requirements, offering precise fit.
- **2.25 in Outside Diameter:** Compatible with a range of shaft sizes, allowing for versatile use.
- **1.99 in Shaft Diameter:** Ensures a snug fit, reducing vibration and noise during operation.
- **Self-Lubricating:** Minimises maintenance needs, saving time and resources.

RS PRO 1-3/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-859

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring reliable and efficient rotational movement. Made from sintered bronze, it offers excellent durability and performance in various industrial settings. The bearing's primary benefit is its ability to reduce friction between moving parts, enhancing the longevity of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.99 in

Mechanical Specifications

Length	1-3/4 in
Material	Sintered Bronze
Outside Diameter	2.25 in
