

REVO WHEELS PEL

The best quality/price ratio in a completely new lightweight robust case complete with trolley and wheels. Made in vacuum formed ABS and now with a strong aluminium trim, using the most advanced technological solutions and standardized automated production processes. A special dividers system is directly fitted into the ribbed bottom tray, forming a more spacious and perfectly organized body. Without the addition of a separate internal bottom tray, the new case is much lighter and just as resistant and compact.

Model Description:

- 2 pallets with elastics
- Bottom tray with removable dividers
- 2 side locks with key
- Soft grip handle
- broader space between wheels for a better stability
