RS PRO 5.5 in Stainless Steel Electricians Scissors

RS Stock No.: 487-135

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Our RS PRO-heavy-duty, chrome steel electricians scissors with a notch are ideal for electricians out in the field whilst working. These scissors have been specifically designed to cut Kevlar and other tough aramid fibres that are practically impossible to cut with conventional scissors and shears. These purpose-designed scissors incorporate a serrated cutting edge. The blades are also thick to resist bending, preventing the aramid fibres from getting between the blades.
