

FEATURES

- **Sintered Bronze Material:** Provides excellent wear resistance and self-lubricating properties, reducing maintenance needs.
- **3 in Outer Diameter:** Suitable for accommodating larger shafts, ensuring stability and support.
- **2 in Length:** Compact design allows for easy integration into various mechanical systems.
- **2.49 in Shaft Diameter Compatibility:** Ensures a precise fit for optimal performance and reduced vibration.
- **Plain Bearing Design:** Offers smooth and quiet operation, ideal for high-speed applications.

RS PRO Sintered Bronze Plain Bearing, 3 in Outer Diameter

RS Stock No: 594-770

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO sintered bronze plain bearing is designed for applications requiring reliable and efficient rotational movement. With a 3-inch outer diameter, it is ideal for supporting shafts with minimal friction, enhancing the longevity and performance of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	2.49 in

Mechanical Specifications

Length	2 in
Material	Sintered Bronze
Outside Diameter	3 in
