

FEATURES

- **Sintered Bronze Material:** Provides high strength and wear resistance, ensuring long service life
- **1 in Length:** Suitable for compact installations where space is limited
- **1.12 in Outside Diameter:** Offers stability and support for various shaft sizes
- **0.74 in Shaft Diameter Compatibility:** Ensures a snug fit for optimal performance

RS PRO 1 in Plain Bearing, Sintered Bronze

RS Stock No: 558-525

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for applications requiring smooth and efficient rotational or linear movement. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for high-load environments. Its compact size ensures easy integration into various mechanical systems.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.74 in

Mechanical Specifications

Length	1 in
Material	Sintered Bronze
Outside Diameter	1.12 in
