

# Meet the Form 2

See what makes the Form 2 the most advanced desktop 3D printer ever created.

## **AUTOMATED RESIN SYSTEM**

The Form 2 automatically dispenses material from the resin cartridge based on the size of your prints. Print big parts without pausing for refills.

## **CONNECTED PRINTING**

Easily send prints over wifi, reprint previous jobs, and manage your print queue.

## **BIGGER, BETTER PRINTS**

With a 40% bigger build volume, and a 50% more powerful laser, the Form 2 is capable of large prints with spectacular detail.

Print detailed parts not possible with other desktop machines.

## **SLIDE PEEL**

Print big, solid parts with lower peel forces and reduced wear on the resin tank.

## **RESIN WIPER**

Improve print consistency by removing any particulates from the build area.

## **HEATED TANK**

Achieve optimal print conditions by maintaining an internal temperature of 35 °C.

# Technical Comparison

**FORM 2**

<b>Technology</b>	Stereolithography (SLA)	Stereolithography (SLA)
<b>Dimensions</b>	30 × 28 × 45 cm 12 × 11 × 18 in	35 × 33 × 52 cm 13.5 × 13 × 20.5 in
<b>Build Volume</b>	125 × 125 × 165 mm 4.9 × 4.9 × 6.5 in	145 × 145 × 175 mm 5.7 × 5.7 × 6.9 in
<b>Warranty</b>	One Year Pro Service Plan Available	One Year Pro Service Plan Available

## PRINT RESOLUTION

<b>Min Layer Thickness</b>	25 µm (0.0010 in)	25 µm (0.0010 in)
<b>Laser Spot Diameter (FWHM)</b>	155 µm (0.0060 in)	140 µm (0.0055 in)

## FEATURES

<b>Resin Fill System</b>	Manual	Automated
<b>Connectivity</b>	USB	Wifi, Ethernet and USB
<b>Peel Mechanism</b>	Hinged Peel Process	Sliding Peel Process with Wiper

**QUESTIONS?**  
[hello@formlabs.com](mailto:hello@formlabs.com)

Powerful printer. Amazing ecosystem.  
Welcome to the latest in 3D printing technology from Formlabs.
