

Cable Tie Installation Tools – Ergonomic Series, Hand Tools

PANDUIT leads the industry in providing the most preferred cable tie installation tools for their complete line of PANDUIT cable ties. Choosing the right installation tool increases productivity and promotes worker safety for the lowest installed cost. The GTS and GTH tools are part of the PANDUIT ergonomic series of hand-operated, tool-controlled tension, and cut-off cable tie installation tools.

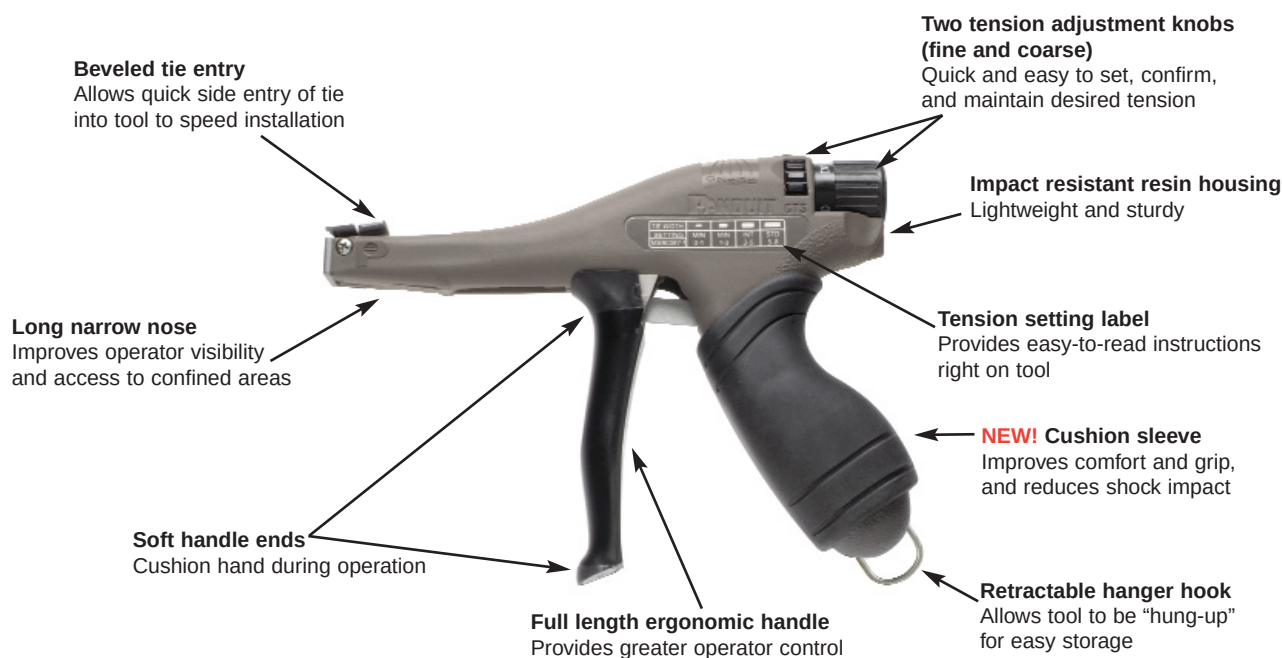

- **GTS** Tool installs subminiature (8 lbs.) through standard (50 lbs.) cross section cable ties
- **GTH** Tool installs standard (50 lbs.) through heavy (175 lbs.) cross section cable ties

The ergonomic series of tools is excellent for low to medium volume applications (under 50,000 ties/year) in the OEM, MRO, and Construction Markets.

Key Features and Benefits

- **Lightweight, ergonomic design** speeds installation and reduces operator fatigue and repetitive motion injuries
- **Flush tie cut-off** eliminates sharp edges and improves safety by preventing damage to adjacent wire bundles and injury to workers' hands and arms

Cable Tie Tools – Ergonomic Series, Hand Tools

To Change Tension Setting

Step 1: Use Coarse Adjustment Knob to select appropriate cross section

Step 2: Use Fine Adjustment Knob to set and maintain desired tension

① Coarse Adjustment Knob
② Fine Adjustment Knob

Optional Tension Lockout Kit
