

## FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long service life
- **1-1/8 in Length:** Suitable for applications requiring precise alignment and stability
- **1 in Outside Diameter:** Allows for compatibility with a wide range of housings and supports
- **0.87 in Shaft Diameter:** Ensures a snug fit for optimal performance and reduced vibration

**RS PRO 1-1/8 in Sintered Bronze Plain Bearing, 1 in OD**

RS Stock No: 528-204

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

This RS PRO plain bearing is designed to facilitate smooth rotational or linear movement between two surfaces. Made from sintered bronze, it offers excellent durability and resistance to wear, making it ideal for high-load applications. The bearing's compact design ensures easy integration into various mechanical systems.

## General Specifications

Product Type	Plain Bearing
Shaft Diameter	0.87 in

## Mechanical Specifications

Length	1-1/8 in
Material	Sintered Bronze
Outside Diameter	1 in
