► Original Rack-A-Tiers

VS

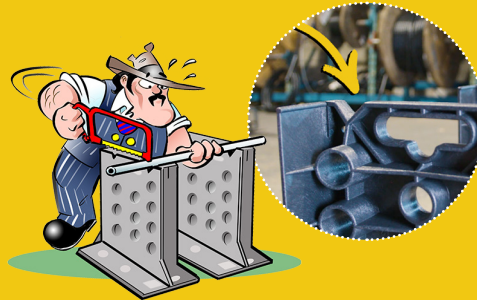

HOLDS REELS UP TO:
34" IN DIAMETER
REEL WEIGHT RATING:
330LBS (149KG)

DO MORE WITH THE MOST VERSATILE WIRE DISPENSER ON THE MARKET

Made Bigger & Better

- Holds reels up to 40 inches in diameter.
- Reel weight rating: 500 lbs (226 kg).
- Handle multiple reels with 11 holes, 3 handles, and 2 'V' notches.

Multipurpose: Use it as a Sawhorse, Workbench, and Pipe Vise

- **Sawhorse** - Place the two sides of the Rack XL at the appropriate distance and set your lumber on top to cut.
- **Workbench** - The base has four 1 3/8" (35mm) holes and 'gun sight' alignment mark to allow drilling through various materials.
- **Pipe Vise** - Use the 'V' notch as a pipe vise to hold materials like conduit, steel studs, moldings, angle iron, strut, and other irregular shaped materials.

Lighter & More Durable

- Made with the same ultra-durable high-density polyethylene foam as the original to last you for years of use.
- Strong enough to use as seat when you need a break.
