

Liquisole

A polyurethane one-component moisture curing adhesive with high solid content and a high flexibility.

Liquisole is ideal for sealing and repairing rain clothes, rubber boots, rubber boats, soles and heels of shoes, etc. Liquisole has good adhesion to a broad range of both absorbent and non-absorbent materials. Liquisole is also a universal glue for e.g. wood, cork, porcelain, leather, metal etc. Gives a transparent glue with good resistance to water, oil, petrol and most household chemicals.

Technical data

assembly time: 10 min

Ready for use: after 16-48 hours
