- 64GB (Class 10)

Do more with your smartphone, tablet, or other mobile device

In today's mobile world, we're all trying to store more and more content on the go. Available in 4GB-64GB capacities, Lexar® microSDHC™/microSDXC™ cards increase the storage capacity of your mobile device, helping ensure you won't run out of space.

Store more high-quality photos, HD video, movies, songs, and more

Do more with your smartphone, tablet, or other mobile device.

Lexar microSDHC/microSDXC cards help ensure you won't run out of space. They provide reliable, high-capacity performance that allow you to store more high-quality photos, HD video, movies, songs, and files on your smartphone, tablet, or other mobile device.

Serious storage. Lexar microSDHC/microSDXC cards give you the ability to store up to 8 hours of HD video; 24,800 photos; or 14,200 songs.* So whether you've got a basic mobile phone or the latest tablet, you can download and store a huge number of media files—great for your mobile lifestyle.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

When memory matters, the choice is Lexar. With a history of more than 15 years in the industry, we know memory. We move quickly with technology to design the solutions you need, and work with device manufacturers to make sure our products are compatible. Then we stand behind them with outstanding warranties and helpful customer service. We're dedicated to performance, reliability, and expert support, so when it comes to storing the memories that matter, trust Lexar.

Lexar offers a comprehensive line of innovative, award-winning memory products in several categories, including memory cards, card readers, and USB flash drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

Lexar. When Memory Matters.™

*Based on 64GB capacity. 8-megapixel JPEG. 128-kbps MP3 audio. HD 720p@24fps (5 Mbps) video. Actual number of photos, songs, and video minutes will vary depending on camera/device model, format resolution and compression, usable capacity, and bundled software.

Some of the listed storage capacity is used for formatting and other purposes and is not available for data storage. 1GB equals 1 billion bytes. For more information, go to www.lexar.com/capacity.
