

Features

- High resistance to abrasion, corrosion and moisture
- Semi-crepe paper backing material
- Natural rubber adhesive
- Length 50 m
- Width 18 mm

RS PRO Masking Tapes

RS Stock No.: 0219035

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

This masking tape from RS PRO is ideal for ensuring you get a neat finish on painting jobs. It can also be used to mask off areas while spraying, or to protect wood from splintering while drilling.

This tape is made from lightly creped paper backed with a solvent-based, rubber resin adhesive. The crepe paper makes it easy to unwind and tear, while the low tack of the adhesive makes it repositionable when applied with light pressure. This allows you to get your job set up just right, as well as providing you with a clean peel up to three hours after application. It also conforms well around irregular shapes, meaning that it will follow the structure of a curved edge efficiently for a sharper paint line.

Also known as painter's tape, masking tape is widely used in interior decoration. It's well-suited to professionals, hobbyists and DIY enthusiasts.

General Specifications

Backing Material	Semi-Crepe paper
Width	18mm
Length	50m
Thickness	129
Colour	Beige
Maximum Operating Temperature	80° C
