Technical sheet

VELO404

4-bike rack - galvanized - with fixings

Bike rack ideal for easy bicycle storage. Allows storage for up to 4 bicycles. Easily fixed to the ground with its 4 fixing points. The centre distance between the hoops is 60 mm. End caps and fixings are included. Made of galvanized steel. Additional spaces can be added with other modules from the range thanks to the spacer system and the single or double modules. Can be fixed to a wall.
