RS PRO Self Engaging Black Hook & Loop Tape, 20mm x 200mm

RS Stock No: 449-9189

RS PRO is the own brand of RS. The RS PRO Seal of Approval is your assurance of professional quality, a guarantee that every part is rigorously tested, inspected, and audited against demanding standards. Making RS PRO the Smart Choice for our customers.

Product Description

This hook and loop tape from RS PRO is the ideal solution for all your cable management needs. It's self-engaging, with hooks on one side and loops on the other that can easily be fastened together. The tape is cut to 200 mm length each, for ease of use on-site. Simply pull out of the roll, wrap tightly around the cables, and press to engage the fasteners. Peel to disengage if you only need a temporary fix.

Made from polypropylene and velour polyamide (PA), these ties are durable and can be re-used for a long time, even after repeated fastening and unfastening. The soft and flexible surface ensures the protection of wiring insulation from damage due to over-tightening which can often occur with plastic ties, especially in the case of optical fibre cables. Hook and loop ties are a durable, reusable option for bundling, sorting, or tidying cables.

General Specifications

Material	Polypropylene and velour polyamide
Length	200 mm
Width	20 mm
Colour	Black
Pack Qty	50
