

FEATURES

- **Sintered Bronze Material:** Provides high strength and excellent wear resistance, ensuring long service life.
- **1-1/4 in Length:** Suitable for a wide range of applications, offering versatility in use.
- **1.88 in Outside Diameter:** Ensures compatibility with various housing sizes, facilitating easy integration.
- **1.49 in Shaft Diameter:** Designed to fit standard shaft sizes, allowing for straightforward installation.

RS PRO 1-1/4 in Plain Bearing, Sintered Bronze

RS Stock No: 528-841

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO plain bearing is designed for efficient and reliable performance in various industrial applications. Made from high-quality sintered bronze, it offers excellent durability and resistance to wear, making it ideal for use in demanding environments. Its primary function is to support rotating or sliding shafts, reducing friction and enhancing the lifespan of machinery.

General Specifications

Product Type	Plain Bearing
Shaft Diameter	1.49 in

Mechanical Specifications

Length	1-1/4 in
Material	Sintered Bronze
Outside Diameter	1.88 in
