

Need to **upgrade** your hard drive?

Save your **data**. Save your **time**.

Get **DriveCopy™ 4.0** from PowerQuest®

DriveCopy 4.0 lets you copy and upgrade your hard drive with an easy-to-use wizard interface.

Time is valuable and you don't have a second to waste. That's why all serious PC users need DriveCopy 4.0 by PowerQuest. Don't spend valuable hours downloading your data, applications, and operating systems to disk, then more time reinstalling everything to your new hard drive. Don't take chances on scrambling your data or losing it altogether. Don't give up and pay someone else big bucks to come and do it for you. Copy and upgrade your hard drive virtually in minutes! DriveCopy 4.0:

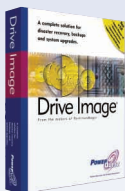

- Is ideal for both home and small office PC users
- Creates an exact copy of your entire hard disk or just the partitions you specify
- Contains a graphical wizard interface, which makes the entire process take minutes...in 10 easy steps!
- Is a safe and effective way to upgrade to a new hard drive

Complete Data Management and Protection Solutions

Along with DriveCopy, PowerQuest offers other powerful tools to help you manage and protect your valuable data.

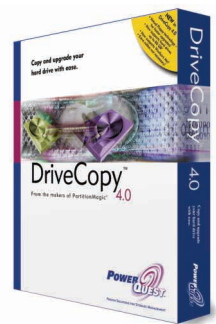

PartitionMagic® allows you to create, resize, merge, and convert partitions on your hard disk without destroying data. PartitionMagic also helps you organize and protect your data and run multiple operating systems.

Drive Image® allows you to create and store images of your entire hard drive, or individual partitions, onto a Jaz®, Zip®, secondary hard drive or another partition. This makes backups, migrating to a new hard drive or recovering from a hard drive crash, fast and easy.

With DriveCopy 4.0, you can easily copy the entire contents or selected partitions of your current hard drive to a new one. The latest innovative technology from PowerQuest makes DriveCopy the **ONLY** software you need to copy every setting, preference and byte of data, including hidden files, while keeping it all intact. PowerQuest—a leader in innovative upgrade software—offers reliability, service and on-going product upgrades and enhancements.

DriveCopy™ 4.0

DriveCopy from PowerQuest®, is the safest, easiest, and most affordable way to copy everything from your old hard drive to your new hard drive.

DriveCopy 4.0 simplifies the hard drive upgrade process by providing:

Reliability and Speed

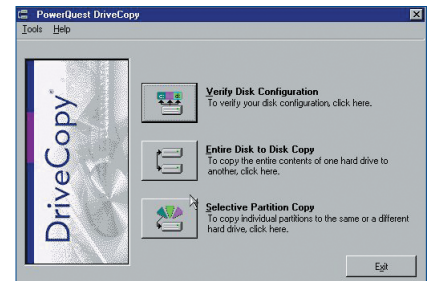

- DriveCopy 4.0 provides a fast and efficient way to upgrade to a new hard drive.
- PowerQuest SmartSector® technology allows copy speeds up to 300MB per minute and ensures exact duplication of your hard drive.
- Each partition can be resized proportionately to fit the increased capacity of the new drive.

Exceptional Ease of Use

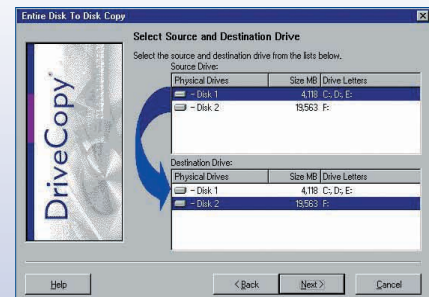

- NEW! Virtual Floppy technology removes the need to create boot diskettes, thus speeding up the upgrade process.
- With its graphical wizard interface, the user is walked step-by-step through the upgrade process.
- Unlike other hard drive upgrade solutions, no additional cables are required!

Flexibility

- NEW! Enhanced Operating System support: Windows ME; Windows 2000 Professional; NT 4.0 Workstation; Windows 95/98; Linux; DOS.
- Comprehensive file system support including FAT, FAT32, NTFS, Linux, Linux ext2 and HPFS.

Upgrading your hard drive is easy with this user-friendly, wizard interface.

The Disk to Disk feature copies the entire contents of one hard drive to another in just minutes.

System Requirements:

- Intel/386 SX compatible or higher
- 16 MB of RAM (32 MB required for FAT32 or NTFS)
- Windows 95/98, ME, NT 4.0 Workstation, Windows 2000 Professional, Linux or DOS (Linux and 16-bit operating systems require DOS)
- CD-ROM drive
- VGA or higher video support
