

SDS-PLUS ROTARY HAMMER 710W 2J

- Ideal for drilling anchor holes in concrete from 4 to 22 mm in diameter.
- Rotation stop for light chiseling in soft building materials, brick and occasionally light concrete.
- Striking stop for simple rotary drilling in wood, metal, tiles.
- Strong mechanism delivering high power with low stresses on "key" parts.
- The safety release eliminates the risk of jerks when the drill bit locks.
- Electronic variable speed allows for tool control in all circumstances.

Impact Force (E.P.T.A.): 2J
No-load speed (rpm): 0-1550
Ø wood/concrete/metal/drill bit (mm): 30/22/13/50
Beats per Minute (cps/min) : 0-5680
Vibration Level (m/s²): 13.6
Mode (Rotation/Perforation/Percussion) : 3

with multi-position side handle, depth stop
