

FEATURES

- Bayonet adapter for use with Type J and Type K adjustable bayonet
- Maximum operating temperature of +350°C
- Minimum operating temperature of 0°C
- Connector size of 1/8 BSP
- RoHS (Restriction of Hazardous Substances) compliant

RS PRO Bayonet Adapter for use with J & K Type Adjustable Bayonet, 1/8 BSP

RS Stock No.: 621-2243

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO bayonet adapter is a simple solution for holding Type J and Type K adjustable thermocouples in place. It's used together with a bayonet cap and has a 1/8 BSP (British standard pipe thread). The adapter works by securing the thermocouple sensing tip firmly against the surface to be measured. You'll find it also allows for easy adjustment of the immersion depth of the temperature probe and the thermometer can be fully immersed in the media it's reading.

General Specifications

Accessory Type	Bayonet Adapter
For Use With	J & K Type Adjustable Bayonet
Thermocouple Type	J & K
Colour	Brown
Applications	1/8 BSP Connector

Mechanical Specifications

Connector Size	1/8 BSP
Length	2000mm
Probe Diameter	10.5mm
Plug/Socket	Plug
Dimensions	4mm x 29mm

Operation Environment Specifications

Maximum Temperature	+320°C
Minimum Temperature	0°C

Approvals

Compliance/Certifications

RoHS
