Universal Work Holder

RS Stock number **849-6238**

A versatile support tool for holding odd shapes and smaller components while painting, filing, engraving, sawing & shaping or gluing

- Comes with 8 steel pins which can be placed anywhere on the head to accommodate various shapes. Can grip from the outside or from within. The pins can also be used for bending and forming wire
- The clamp head can be removed from base and fitted to a larger bench vice if required
- The 504g base is fitted with inbuilt rubber ring making the work holder stable and non-slip
